

Candidates Final Classification

ID	Name	Classification				Final	Evaluation	Comment
		Stud	Program	Supervision				
ID-009	Leonor Rebolo	4.06	4.75	4.9	4.59	The panel recommends awarding the fellowship.		
ID-003	Ana Rita CarvalhoTeixeira	4.05	4.63	4.78	4.5	The panel recommends awarding the fellowship.		
ID-010	Rui Fernandez	3.68	4.75	4.88	4.47	The panel recommends awarding the fellowship.	Very good project and solid candidate. The panel recommends awarding a fellowship.	
ID-001	Gonçalo Machado Ribeiro	4.14	4.35	4.38	4.29	The panel recommends awarding the fellowship.		
ID-005	Diogo Engrácia	3.93	3.8	4.75	4.12	The panel recommends awarding the fellowship.		
ID-002	Francisca Afonso	3.0	3.65	4.65	3.76	The panel recommends awarding the fellowship.	It is an interesting and relevant research programme. It is ambitious, but also relative complex. The research program is sufficiently described and the applicant and the supervisors have the needed competences to conduct the described studies.	
ID-004	Vital Cruvinel Ferreira Filho	2.95	4.0	4.25	3.76	The panel recommends awarding the fellowship.		
ID-014	Rafael Travassos	2.75	3.25	4.9	3.6	The panel recommends awarding the fellowship.	The research program is relevant and ambitious. The research programme is rather complex and includes FLASH radiotherapy, which we find is not needed for the investigation of the effects of virus-like nanoparticle chemotherapy and radiotherapy for HER+ breast cancer.
